

To Whom It May Concern;

I am writting to sk that you DO NOT implement any proposal"s
that would hinder the currant Indiana Telephone Privacy law.

It is working wonderfully just as it is, other than around election time I am no
longer bothered by telemarketers. My time at home is not interupted daily by
those needless call's.I personaly believe

that the law in Indiana is doing exactly what is was intended to do,
stop the onslaught of unwanted calls.

Thank You.
